Dear Bob:

Florida Shutters was a company that in my opinion had no direction and was out of control. We were very much over whelmed by the amount of jobs and service calls after the hurricanes of 2004 and 2005. With your vast knowledge of business you were able to come in and give us stability in a very uncertain future. The restructuring of job descriptions and our personnel was of great benefit to Florida Shutters. I would personally like to thank you for redirecting my efforts and giving me a clear understanding of my purpose and the roll I have in making Florida Shutters a prosperous company. Other businesses will want to capitalize on your ability to make a good company a great company!

Thank you.

Sincerely,

Dale Brown
